

Multidisciplinary Studies Graduation Verification Form

Purpose: All Multidisciplinary Studies (MDS) students must have their approved Individual Degree Plan (IDP) courses submitted to the Registrar’s Office as part of the graduation application process. This form authorizes the Registrar’s Office to make changes to your Academic Advisement Report (AAR) in the “Upper-division courses required by the degree plan” section and to evaluate your eligibility for graduation.

Upper-division courses required by the degree plan

Not Satisfied: Upper-division courses will be selected in collaboration with the program advisor based on the student’s educational goals and a degree plan approved by the Multidisciplinary Studies Advisory Committee. These courses must be completed during or after successful completion of MDS 300. At a minimum the proposed course of study must demonstrate a coherent design characterized by appropriate breadth, depth, sequencing of courses and synthesis of learning. The design must be clearly linked to the stated educational objectives of the program. Programs of study that appear to be crafted to avoid course sequencing, pre-requisites, or disciplinary coherence will not be approved. Only 4 credits for internship and/or field work may be applied. With advisor approval, up to 3 credits from upper-division workshops may be used to satisfy this requirement.

The list of approved courses to fulfill this requirement must be submitted to the graduation evaluation area of the Registrar’s Office to be cleared for degree completion.

- Units: 21.00 required, 0.00 used, 21.00 needed

Instructions: On this form, please include the course number, course name, credits earned (must be at least a C-), and the semester and year you completed or are completing your approved IDP courses.

You are responsible for completing and submitting this form to the MDS office during your request for permission to take the MDS 495 – Capstone for the BA in Multidisciplinary Studies. Upon receipt, the MDS office forwards this form to the Registrar’s Office. If you need to make changes to this form after it has been submitted, you can do so with permission from your advisor and by submitting an updated version of this form to the MDS office.
